

Nutriline-Decaf Tea

DECAF TEA

GOOD HEALTH AND GOOD TASTE

Nutriline-Decaf Tea is distinctly different decaffeinated tea because it not only brings great health – it comes with great taste as well. Novo's patented extraction process preserves the rich flavor and aroma of the tea leaves while giving you quality decaffeinated tea. Caffeine content is less than 0.4% by weight. Moisture content is 5%.

Nutriline-Decaf Tea – Naturally healthy

Novo's gentle SCFE process preserves all the beneficial compounds in black tea/green tea such as polyphenols and catechins (the compounds that fight cancer and cardiovascular disease) while extracting caffeine. Green teas are known to cause reduction of cholesterol levels, improve LDL and HDL ratio, reduce platelet

pressure, lessen risk to many forms of cancer and have antibacterial properties. Nutriline-Decaf Tea brings all the health benefits of black and green teas to you with great taste.

Nutriline-Decaf Tea – Just perfect, every time!

Nutriline-Decaf Tea is superior to other decaffeinated teas because Novo is totally dedicated to it. Novo does not deal in any other teas, and all our care, focus and attention is directed to producing the best Decaf Tea. No wonder, it is the best!

- ▶ Quality green tea procured from select tea estates in Assam and Nilgiris in India, China, Vietnam and Argentina.
- ▶ Patented process that yields superior product.
- ▶ The safest extraction technology available today – SCFE.
- ▶ Quality checks such as organoleptic evaluation, contents analysis, analysis for pesticide, residue, heavy metals, micro biological tests and other quality checks

The World's favourite

Novo's decaffeinated tea has been widely accepted in international markets for years. As a single source supplier Novo provides many benefits – from quality to price. You will too, if you try Nutriline-Decaf Tea once.

Novo's SCFE Facility for Superior Product

Nutriline-Decaf Tea is produced at Novo's 1000 tpa Super Critical Fluid Extraction (SCFE) plant in India. The SCFE process is widely regarded as the best process for extraction.

- ▶ The process extracts caffeine without disturbing other healthful compounds in the tea.
- ▶ Gentle process preserves active ingredients. Creates no environmental hazards.
- ▶ Co₂ is GRAS certified, non-toxic, non-flammable and free of bacterial content and microbiological activities.

Product Code	Caffeine	A O Content	Moisture Content	Remarks
GT 001	< 0.4%	170-200 mg/2gms	<5.5%	Typical GT
GT 002	< 0.2%	170-200 mg/2gms	<5.5%	Typical GT
BT 001	< 0.4%	120-170 mg/2gms	<5.5%	Typical of BT
BT 002	< 0.2%	120-170 mg/2gms	<5.5%	Typical of BT
WT 001	< 0.4%	200-230 mg/2gms	<5.5%	Typical of WT
WT 002	< 0.2%	200-230 mg/2gms	<5.5%	Typical of WT
