

Nutriline-Forskolin

PLANT COLEUS FORSKOHLI

SMOOTH MUSCLE RELAXANT AND ANTI SPASMODAL AGENT

Nutriline-Forskolin is pure and concentrated Forskolin extracted from the plant Coleus Forskohli by Novo's SCFE extraction process and is a rich source of healthful phytonutrients. Novo's SCFE extraction process gives Nutriline-Forskolin the antioxidant edge, which is evident in its longer shelf life as well as increased bioavailability to the user, making Nutriline -Forskolin highly effective even in low doses. Nutriline-Forskolin is available with Forskolin 10-20% in powder form.

Health benefits of Forskolin

Nutriline-Forskolin comes with healthful Forskolin, known to activate 'adenylate cyclase', the enzyme that results in increased cyclic Adenosine Monophosphate (cAMP) in cells. Cyclic AMP (cAMP) is one of the most important cell-regulating compounds and belongs to a class of substances known as "second messengers" that activate other enzymes involved in diverse cellular functions. Packed with all the benefits of this centuries old 'ayurvedic' medicine, Forskolin is a known smooth muscle relaxant and anti-spasmodal agent with many health benefits in a variety of medical conditions.

Forskolin supplementation is beneficial since it,

- ▶ Relieves asthma and allergies, causes bronchodilation, decreases airway resistance and increases vital capacity.
- ▶ Lowers blood pressure, reduces hypertension, angina risk. Relaxes arteries, increases heart muscle contraction, causes increased cerebral blood flow.
- ▶ Relieves increased intraocular pressure and glaucoma. Studies indicate that topical application significantly decreases intraocular pressure.
- ▶ Alleviates psoriasis, aids weight loss by breaking down fats, increases thyroid hormone function.
- ▶ Treats depression, prevents metastases in cancer, enhances immune system.

Novo's SCFE Process for Superior Product

Nutriline-Forskolin is produced at Novo's 1000 tpa Super Critical Fluid Extraction (SCFE) plant in India. The SCFE process is widely regarded as the best process for extraction.

- ▶ The process extracts Forskolin such that it remains intact and at its highest level of concentration and purity.
- ▶ Concentrated extract is exclusively composed of the raw material ingredients and can be used in low dosage.
- ▶ Concentrated extracts can be easily assimilated by the human body.
- ▶ The process is gentle on active ingredients since extraction is at high pressure and low temperature and creates no environmental hazards.
- ▶ The extraction agent, CO₂, is GRAS certified, non-toxic, non-flammable and acceptable for use in food and beverages.
- ▶ CO₂ is free of bacterial content and microbiological activities.
